

Trophic Communications

We are building the premier strategy, communications and investor relations advisory for the biotech industry. Join us!

About Trophic Communications:

Trophic is a strategic partner for all aspects of communications for life science companies. We apply a deep understanding of both the science and business of drug development as well as the capital needed for success. Based on the breadth and depth of our experience, Trophic has become the go-to advisory for developing effective corporate stories and explaining scientific concepts. Current client portfolio ranges from biotech start-ups, listed biopharmas to small and large pharmaceutical companies.

What We're Looking For:

Are you interested in business? Science? Communications? ***Trophic is looking to hire dedicated new team members (m/f/d), either at entry-level or with previous experience,*** to cover a range of exciting projects in our rapidly expanding firm.

Requirements:

- Strong written communication skills as well as networking skills (face-to-face or on the telephone)
- Interest and/or knowledge about the life sciences and drug development
- Detail-oriented
- Fluent in both English and German
- Preferably with an educational background in science, business and/or language
- Comfortable with Microsoft Office including Word, Powerpoint and Excel

Job Description:

At Trophic we cover all aspects of strategic communications for pharmaceutical and biotech companies including positioning, industry visibility and perception, public and media relations, investor relations and senior counsel. As a member of our team you will need to combine creative communication skills with professional integrity and a dedication to face diverse tasks and challenges such as:

- **Writing:** press releases, company presentations, briefing books, emails, website content or fact sheets, and you will need to be able to communicate complex financial and scientific issues to a wide audience in English and for some clients in German.
- **Research:** using databases, media outlets and internet to analyse and collect information and statistics in the biotech industry
- **Investor Relations:** investor outreach, targeting key players in the investment community to create effective corporate communications strategies and deliver results
- **Public Relations:** survey industry news and work with the media to pitch important news and developments.

We serve clients with a global view and an interest in raising their visibility across the EU and in the US, therefore we work collaboratively and sometimes flexibly regarding working hours.

To Apply:

Please send a short cover letter and CV in either German or English (ideally both) to careers@trophic.eu

We look forward to hearing from you!
